Project Manager / Estimator

Since 1985, Witwer Construction, Inc. has been a trusted General Contractor in Fort Wayne, Indiana, known for excellence, integrity, and reliability. With decades of experience, we deliver high-quality commercial, industrial, and institutional projects, building strong client relationships and a legacy of craftsmanship.

We are seeking an experienced Project Manager / Estimator to oversee Building Construction Projects in Northern Indiana. This role is critical to the successful execution of our projects and requires a detail-oriented professional with strong leadership skills.

Key Responsibilities:

- Manage the project schedule and budget to ensure timely and cost-effective completion.
- Oversee and review submittals, RFIs, and procurement of materials for self-performed work.
- Coordinate change request pricing and provide informational support to project superintendents.
- Lead the project from bid award to final closeout and warranty period management.

Qualifications:

- Minimum 5 years of experience as a Project Manager in Building Construction with a proven track record of delivering major projects.
- A degree in Building Construction Technology or Building Construction Management is preferred.

What We Offer:

- Competitive salary
- Health insurance
- 401(k) plan
- Paid time off & holidays
- If you're a dedicated professional looking for an opportunity with a reputable construction company, we'd love to hear from you! Send resume in confidence to employment@witwerconstruction.com.
